

**Sprick GmbH**

**Bielefelder Papier- und Wellpappenwerke & Co.**

Hanfstraße 23

33607 Bielefeld

Manufacturing site:

Orpethaler Str. 26

34474 Diemelstadt

**Date of issue:** 16.07.2026

**Declaration No.:** LI- SC70-SC90-2026-003

**1. Product designation**

- Productgroup: SpeedMan® 70 Standard, SpeedMan® 90 Standard
- Basis weight: 70 g/m<sup>2</sup> and 90 g/m<sup>2</sup>
- Product type: Packaging material (paper)

**2. Description and intended use**

The above-mentioned product is placed on the market as packaging material and is intended for use as packaging or as a packaging component within the meaning of Regulation (EU) 2025/40 on packaging and packaging waste (PPWR).

The material consists of 100% paper-based recycled fibres (recovered paper).

According to current knowledge, the product is attributable to paper recycling.

The final assessment of recyclability within the meaning of the PPWR is carried out by the respective producer of the packaging, taking into account the specific packaging unit and the future binding design-for-recycling criteria.

**3. Recycled content**

- Recycled content: 100% paper-based recycled fibres (recovered paper)
- Origin of the recycled material: post-consumer and/or pre-consumer recovered paper in accordance with the applicable European standards

**4. Information provided pursuant to Art. 16 PPWR**

This supplier information is based on the technical documents, material information, raw material specifications and other available evidence held by Sprick GmbH Bielefelder Papier- und Wellpappenwerke & Co. at the time of issue. It serves to support the customer, as producer, in its conformity assessment pursuant to Regulation (EU) 2025/40.

- **Material composition:** According to current knowledge, the raw materials used comply with the applicable material requirements of the PPWR.
- **Recyclability:** According to current knowledge, the product is attributable to the existing paper recycling stream.
- **Reusability / compostability:** not relevant; the product is primarily intended for recycling;
- **Compliance with the limit values for heavy metals under Directive 94/62/EC (Annex II) and Art. 5 PPWR:** According to current knowledge and on the basis of the available evidence, the limit values for lead, cadmium, mercury and hexavalent chromium are complied with in accordance with the relevant packaging requirements.
- **Substances of concern (Art. 5(1) PPWR):** According to current knowledge and on the basis of the available raw material information, supplier declarations and available evidence, no substances of concern/Substances of Concern (SoC) pursuant to Art. 3(1) PPWR in conjunction with Art. 2 No. 27 ESPR (EU) 2024/1781 are intentionally used in the manufacture of the supplied packaging.

As the products are manufactured entirely or predominantly from paper-based recycled fibres/recovered paper, the unintentional presence of such substances from the input material cannot be completely ruled out.

*Substances of concern are present but limited to a minimum:*

☐ *No, no substances of concern are present.*

☒ *No substances of concern are intentionally used; unintentional presence from recycled fibres/recovered paper cannot be completely ruled out.*

☐ *Yes, the following substances of concern are contained but limited to a minimum:*

---

- **Compliance with the applicable PFAS requirements:** The assessment of the PFAS requirements is based on the available raw material information and, where available, analytical testing. According to current knowledge, no PFAS are intentionally used in the manufacture of the product. The packaging is not intended for direct food contact. The specific PFAS limit values for food-contact packaging under Art. 5(5) of Regulation (EU) 2025/40 are therefore considered not applicable.
- **Sustainable sourcing:** Raw materials originate from recycling streams.

## 5. Further applicable standards and testing

- EN 13430:2004 - Requirements for packaging recoverable by material recycling
- EN 643 - European list of standard grades of recovered paper and board
- REACH Regulation (EC) No 1907/2006

#### **6. Supplier confirmation**

This supplier information is provided by Sprick GmbH Bielefelder Papier- und Wellpappenwerke & Co. in its role as supplier of packaging or packaging materials pursuant to Article 16 of Regulation (EU) 2025/40.

It serves to provide the producer with the information and documents available at Sprick for assessing the conformity of the packaging or packaging material.

This declaration is not an EU declaration of conformity within the meaning of Article 39 and Annex VIII of Regulation (EU) 2025/40 and does not replace the conformity assessment to be carried out by the producer.
